

# AFFORDABLE SAFETY SOLUTIONS CUSTOMIZED TO YOUR BUSINESS

At Synergy Safety and Health, we develop tailor-made safety solutions based on the unique needs of your organization. Our goal is provide unsurpassed service and attentive support. The wellbeing of your employees and organization is our number one concern.

## THE TOP **3** MOST FREQUENTLY CITED STANDARDS

FEDERAL OSHA IN FISCAL YEAR 2014

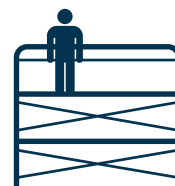

**1**

Fall protection

**2**

Hazard Communication Standard

**3**

Scaffolding, general requirements

Synergy Safety and Health provides proven safety solutions that can reduce the amount of workplace accidents and improve the overall health and safety in the work environment. After an initial evaluation and consultation, our experienced staff will create and maintain a unique and affordable safety program to ensure that your most valuable asset – your employees – are protected.

## **FACILITY SAFETY INSPECTIONS**

It is important to perform routine inspections of your facility in order to maintain a safe work environment. Our inspection program focuses on your entire facility from a safety standpoint and provides a comprehensive report on our findings along with suggestions for possible corrective actions.

## **SAFETY MANUAL DEVELOPMENT**

Having a solid safety manual is at the cornerstone of any successful safety program. Whether you have a current safety management system in place or you are interested in customizing a plan to suit your needs, Synergy Safety can help. Our team of safety professionals are experienced and have the necessary tools and building blocks to create an exceptional program, custom made for your business's needs.

## **SAFETY MEETINGS**

Maintaining a positive safety culture at your organization is vital to promoting a safe work environment. This starts with regular meetings to discuss and talk about safety. At Synergy, we are experts at outlining proactive and comprehensive safety meeting agendas- outlining the necessary tools for supervisors to complete and track these meetings. We can also provide a safety professional to hold these meetings on an as needed schedule

## **BEHAVIOR BASED SAFETY**

A good BBS program provides a connection between management and all levels of employees to share safety behaviors experienced in the work environment. BBS Cards allow you to proactively track and trend behaviors that, if not addressed, could result in incidents. We will create a program to track and trend the cards that are generated. Trending the data in this manner allows us to make suggestions on areas of improvement needed to maintain a safe work environment.

## **EMERGENCY PLANS**

Proper emergency planning and training can directly influence the outcome of an emergency situation. Our team of experts are skilled in creating comprehensive emergency plans to address a variety of situations. Most notably, it is imperative that severe weather plans stay up to date and ready to be enacted, especially with hurricane season upon us.

## **INCIDENT MANAGEMENT**

When an incident occurs, it is vital to properly document and report the situation. In order to receive the most accurate representation of the incident, reports should be filled out in a timely manner. Synergy can help to create the best incident reporting system to fit your needs. We will address and assist in Incident Reporting, accident investigation, root cause analysis, and statistical reporting.

## **TRAINING & CERTIFICATIONS**

Creating a workplace safety culture begins with a well-trained workforce. Our highly trained professionals can set up and maintain your training matrix to ensure that your entire workforce is compliant with current regulations and customer demands. Our innovative online customer portal provides your management team with access to important certifications that they can access at a moment's notice. The training matrix also gives accurate and timely notice as to when all trainings will expire.

## **ISNETWORLD**

"ISNetworld brings together Hiring Clients and contractors, creating safer work environments and lasting partnerships." By managing your ISN account, our experienced staff will save you time and help you to meet the demands of your customers.

## **CASE MANAGEMENT**

In the event of an incident, proper case management results in the greatest care for the injured employee. Our team of trained case managers will accompany your employees on doctor's visits to ensure the highest level of health care while maintaining a constant line of communication with your company.

## **SAFETY MANAGEMENT SYSTEM AUDIT**

A safety management system audit reviews your company's current policies, processes, procedures, records and other safety documentation. Our team of experts will provide a quantitative score on your overall system along with suggestions for corrective actions in weaker areas in order to ensure an airtight system. Synergy also provides skilled professionals familiar with your system in order to assist in system audits by contractors.
